

## Areas in the coastal zone of Lurøy

*Possibilities for sea-based industries.*

The Coastal plan of Lurøy determines land use cf. PBL § 1-2 in Lurøy municipality. The “plan map” for the coastal zone with associated provisions are a legally binding document, authorized in the Planning and Building Act (PBL) § 1-2.

The plan determines future land use and is binding for new measures or expansion of existing measures within the planning area. cf. PBL § 1 1-6. The plan covers the sea areas in Lurøy municipality and applies to the water surface, in the water column and on the seabed.

The plan shall give ocean-related industries possibilities for value creation, based on terms of sustainable development.
